Local safeguarding referral

If you are worried about a child's safety or wellbeing, please contact the school office as soon as possible and ask to speak to the Designated Safeguarding Lead (DSL). If the DSL is unavailable, ask to speak to a Deputy Designated Safeguarding Lead.

Children, parents, carers, visitors and members of the community can all raise a concern. If you are unsure whether to report something, please speak to us so we can help.

Care Connect: 01275 888808| Out of hours: 01275 888808 | Email: care.connect@n-somerset.gov.uk

Immediate danger or emergency: call 999. Where a child is at immediate risk, take protective action without waiting for routine processes.

Locality and contextual safeguarding

Kewstoke Primary School is part of the Wessex Learning Trust. Its established place within the village and its supportive school community provide opportunities to build relationships with families and identify emerging needs. The school promotes an inclusive, caring environment in which children feel understood and valued.

School-specific operational arrangements

Our Breakfast and After School Club are led by school-based staff. Breakfast Club runs from 7:45am-8:45am, whilst After School Club is available from 3:15pm –5:30pm. A member of the safeguarding team is always available during these sessions, either on-site or is contactable by telephone.

Kewstoke Primary School has a dedicated safeguarding email inbox, that can be used to contact one of the safeguarding team directly. This inbox is monitored both during working hours and at weekends. The address is safeguarding@kewstokeprimary.co.uk

At Kewstoke Primary School, we are proud to be working in partnership with Smoothwall to promote online safety for both you and your child.

The Online Safety Hub is a dedicated website offering a wide range of resources, including app reviews and practical advice for parents and carers. It is designed to help children benefit from all the positive opportunities that technology can offer, while also supporting families in developing the knowledge and skills needed to guide and protect children throughout their digital journeys.
